- Certified to breed both RMHA and KMSHA
- Live Cover or set up for Artificial Insemination (additional fees apply)
- NO silver dapple gene - perfect for silver carrying mares!
- He DOES carry the red gene for palomino foals out of red mares
- Golden buckskin with minimal white markings

Hondo's sire is by Broken Bone's Sam's Son and out of a Choco Mare. His dam is a Maple's Squirrel Daughter. He has wonderful, hard to find, tried and true bloodlines.

- Presley's Elvis on Tour x Squirrel's Diamond Annie
- Big boned, 15.2 hands and still growing!
- Unsurpassed puppy dog temperament and a quick learner
- 100% all natural saddle rack, always barefoot trimmed

There are not many 3 year old stallions who will place 2nd out of 16 entries his first time off the farm and entered in a judged pleasure ride, or who will safely and quietly carry a novice and nervous rider on a 2 hour trail ride through the difficult trail terrain! He also peacefully lives in the field with geldings, and other stud prospects every day.
